

won't stop

bpm 125

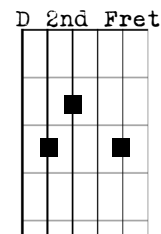

Part 1: Em D C Part 2: E F#m A

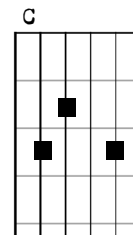

your breath it rushes in fills my lungs  
like a hurricane rushes and floods my home  
you won't sit back you never sit back  
you come in close you never hold back

your light it comes and blinds my eyes  
like a blizzard it comes and takes my sight  
you won't sit back you never sit back  
you come in close you never hold back

your fire it comes and burns my heart  
like an earth quake shakes my whole world down  
you won't sit back you never sit back  
you come in close you never hold back

your hand it grabs and shakes my soul  
like a locomotive rumbling tumbling goes  
you won't sit back you never sit back  
you come in close you never hold back

you just won't stop until you're done  
you can't just stop until you're done  
i'll never love you like i know i can  
until you're done but you just won't stop
