

# Pain

(Aaron Strumpel, CCLI Registered, Re-recording licenses at entertheworshipcircle.com)

Standard Tuning. On a MandoCello. C, G, D, A.

C - G - F - C - G (same throughout song)

(1.) My life so far has been touched by Your grace, but there's still things that shake me  
I grow nearly faint when I see all the pain, there's times I wish I wasn't so tender

(2.) There's AIDS in the world and cancer in my friends, and I'm sick now cause I'm scared  
There're people on the street too cold to feel their feet, and I'm shaking inside cause they hurt

(3.) Our kids just don't know to live in Your love is all that we need to be saved  
It's simple enough, is it just like they say? Can we call on Your name to get help

(4.) When I hear Your voice I won't harden my heart, I don't want to turn away from You  
And it's just 'round the corner when every knee will bow, and freedom will come  
And it's just 'round the corner when You come in the clouds, and pain will be no more
