Standard Tuning.

(vs. 1) My eyes are so blue I feel like I could look right through

And see the stars and the moon take flight

And I wake from my stare from who knows where

To know you've been thinking of me

(ch.) With wonder and fear, you knit me together

You shoulda been scared when you breathed into me

I've a feeling you knew what I'd say and what I'd do

But your love said do it anyway

(vs. 2) My skin is so black I feel I'm the richest

To come from your hand and breathe then stand

And I wake from my stare from who knows where

To know you've been thinking of me

(br.) Search me oh God, know I'm nervous

Test me Father, I'm not perfect

Change me oh God with your mercy

Please smile
